

The SmartCab is a compact economic unit, ideal for short intermittent periods of blast cleaning. The scope of applications include cleaning, etching, removal of coatings and polishing of small components

This unique suction cabinet is suitable for use with a full range of abrasives including glass bead, glass grit, plastic media and aluminium oxide.

Supplied either partially pre -assembled or fully assembled the cabinet can be ready for use within 2 hours of taking delivery

A cartridge type dust collector is included in the package

Technical Specification

SUCTION TYPE CABINET					CARTRIDGE TYPE DUST COLLECTOR									
Sheet metal enclosure					Equipped with removable blower unit for quick and easy exchange of the filter cartridge									
High performance approved BNP gun					Manual jet cleaning									
BNP metering valve					0.55 kW motor – approximately 300 cfm blower capacity									
Adjustable working pressure from 3 to 7 bar					Cartridge – area 7m ² synthetic cellulose									
Door safety interlocks ensuring blasting cannot take place with the doors open					Easy removal and emptying process of the Dust drum									
Safety window with cover lens for protection against wear and tear														
Hand holes so that small parts to be blasted can be taken into the cabinet without opening the door														
Dimensions		W	X	D	X	H(mm)	Dimensions		W	x	D	X	H (mm)	
Overall		1000	x	775	x	1710	Outside		630	x	600	x	1480	
Work Chamber		890	x	750	x	760								
Door Opening		775	x	330										
CABINET PART NO.		100663 Ready Assembled					FILTER PART NO.		100665					
Air Consumption for blasting process														
Blast Pressure	45 psi	80 psi			100 psi									
Air Consumption	14 cfm	21 cfm			26 cfm				6mm Ceramic nozzle as standard
