## Introducing the Nova 3 Blasting Respirator

The Nova 3 is a comfortable blasting respirator. It has been designed with the operator at the forefront, with consideration for their productivity and safety.

The helmet features great visibility with its unique cassette lens system. It gives the wearer an optically clearer view at all times. It has 30% more downward vision than other respirators due to its high level operating window.

The helmet is customisable to the operator with its ratchet padding system and also has side pads that absorb noise. The helmet's design evenly distributes weight across the wearer's head and shoulders, making it more comfortable.

All parts are replaceable and the padding is machine washable so minimises the operator's downtime.

## Key Features

Streamlined air deflection system distributes air across your breathe zone and across the lens to prevent fogging.

Bellow seal creates a complete barrier to dust and particulates.

Widened perspective provides optimal downward and peripheral field of view.

Tear-off lens system to ensure you always have a clear visor when operating. Cassette lens system available to further increase productivity.

Tough helmet shell, manufactured from robust engineering grade nylon offers ANSI Z89.1 (EN397) certified hard hat protection.

Ratchet system and adjustable moulded side pads to help create a secure, customised fit.

Large, glove sized latch that is easy to locate and use.

Removeable visor for efficient lens replacement.

Cape is securely attached with eight snap fasteners.

## Nova 3 Parts

Cassette Lens System  
(pk 20, 5 Tear-off and 1 Outer Lens fused together)  
NV3-7454

Mesh Lens (pk2)  
NV3-746

Tear-off Lens (pk50)  
NV3-725

Inner Lens (pk10)  
NV3-722

Tinted Inner Lens (pk10)  
NV3-722-T

Outer Lens (pk50)  
NV3-724

Supplied Air Breathing Tube  
NV2021B

SAR Breathing Tube Hose Washer (pk 5)  
NV2023

Inner Gasket  
NV3-721

Inner Lens Frame  
NV3-723

Visor Kit  
(includes hinge and latch)  
NV3-726

Hing Lock  
NV3-727-2

## Nova 3 Parts

Head Liner Kit  
(includes NV3-734-1)  
NV3-734

Padding Connectors  
(left and right)  
NV3-730

Side Padding Frames  
(left and right)  
NV3-731

Visor Mount Kit  
(includes 4pcs FS-40 nuts and 4pcs  
FS46 screws)  
NV3-727/8

Head Liner Clips  
(pk4)  
NV3-734-1

Neck Pad  
NV3-735-1

Head Liner Foam Padding  
NV3-735

Hygiene Kit  
(available in 5mm, 10mm, 15mm and 20mm)  
NV3-736 (A5, A10, A15 and A20)

Side Padding Foam and Covers  
(available in 5mm, 10mm, 15mm and  
20mm)  
NV3-732 (A5, A10, A15 and A20)

Side Padding Covers  
(5 pairs)  
NV3-733

## Nova 3 Parts

Nylon Respirator Cape  
(includes inner Bib NV2012)  
NV3-750

Extra Length Nylon Respirator Cape  
(includes inner Bib NV2012)  
NV3-751

Extra Length Leather Respirator Cape  
(includes inner Bib NV2012)

(multi-pin)  
09-934

Cable for VX-261  
09-938

Cable for Apex Icom IC-F4002  
09-939

## L4 Light

Using the L4 helmet light aids the operator to minimise hazards and downtime. It allows them to see everything clearly in their field of vision.

The L4 light enables a stable highly concentrated light to enhance vision. It uses high powered LEDs that can produce up to 650 lumens of light.

It has a lightweight battery pack that mounts securely to the operators belt.

The light has a low profile design with minimum protrusion from the helmet. Providing greater safety and coverage of light.

## L4 Light Parts

L4 Light and Mount Kit  
09-512

L4 Light  
(UK plug available)  
09-502
