

Hodge Clemco Ltd in partnership with IMechE Argyll Ruane are delighted to announce the launch of a new and exciting programme of industry-leading training courses to cover all aspects of surface finishing including blast cleaning, painting and inspection techniques. The core elements of our training courses focus on these key aspects of surface finishing:

- Health & Safety
- Best practice and techniques
- How to maximise the potential of your process
- Equipment use, fault-finding and maintenance
- Efficiency and costs

The courses are offered to help maintain a safe and efficient workplace through knowledge transfer and are intended for all staff involved in the operation and management of the surface finishing process, from operators, managers, supervisors, health & safety personnel, through to inspectors.

## Training Options

We are offering a variety of courses in addition to bespoke training days.

IMechE AR = Institute of Mechanical Engineers Argyll Ruane (Sheffield S9)

HCL = Hodge Clemco Ltd (Sheffield S13)

Courses can be undertaken at our training facility in Sheffield where we can offer a leading edge learning environment and practical facilities. We can also offer training at the customer's site using their own equipment or we can provide loan equipment for practical training. Our team of training advisors are available to talk you through the options. Our syllabus is available to view on our website and can be tailored to suit customers' specific needs.
